Great, thank you!

The Louisiana Chemical Association and Louisiana Chemical Industry Alliance board of directors who are upper level management of the chemical industry will be in D.C. on **Tuesday, January 29th** at The Willard Hotel. We would like to have someone from your office speak to our group about ethylene oxide, and any rules or regulations dealing with chemical safety and the handling of chemicals. If someone is available on January 29th at 4:30 or 5:00 p.m. it would be greatly appreciated.

If you have any other questions or need more information, please let me know.

Thank you,
Brandy

Brandy-

I am reaching out to see if you can share details on the request to have someone from the Office of Chemical Safety and Pollution Prevention come speak to LCA.

Thank you,
Derrick Bolen

I attached conact info for Brandy. She is planning the fly-in for LCA and will have the details you need. Would you rather me ask her to contact y'all?

Appreciate you helping with this.

Excellent. Looping Derrick from our Office of Chemical Safety and Pollution Prevention to help coordinate details with either Nancy Beck or Erik Baptist depending on timing and specific issues they would like to discuss.

Thanks,
Tony

It will be the week of January 28th, but I am not sure of the specific date. That is D.C. Mardi Gras week so the entire state of LA will be in town. I can give you their email address if that works best.

Thank you!

Hey Marcie — It was great seeing you as well! I'll check with our folks to see who might be available and let you know. Do you know what days specifically?

Tony

Hi Tony,

Good seeing you last night! The Louisiana Chemical Association will be in D.C. in January and would like to invite someone from the EPA to speak to their group.

Is there someone in EPA who handles these requests that I can share with LCA?
